#### THRILLS ON WHEELS

Ask American kids to name their favorite sports, and you're likely to find skateboarding somewhere near the top of the list. Many of them are even experts on the subject, eager to discuss different techniques and the physical challenges of various stunts. But there is something that even they would be surprised to learn: the sport is not as new as most kids believe.

The fact is that skateboarding goes back as far as the 1950s, when surfing the waves was a favorite pastime of California youngsters. One day, when the weather didn't allow surfboarders to hit the waves, someone came up with the brilliant idea of "surfing the streets" instead. Suddenly, skateboarding was born. The first skateboards, as they were immediately dubbed, were no more than wooden boards with roller skates strapped underneath. Nevertheless, California neighborhoods were soon filled with kids rattling down the streets, and by 1975 skateboarding had spread nationwide and developed enough for the first competition to be held.

Since then the sport has developed rapidly. New technology has produced boards that are lighter and more flexible, along with effective safety equipment, such as helmets and knee-pads. These advances have enabled skateboarders to invent ever more impressive acrobatic moves. Their astonishing jumps and somersaults have made skateboarding competitions increasingly popular and exciting events.

Most people think that skateboarding is a sport for boys only, but a quick Internet search will bring up lots of information aimed specifically at girls. "Girls can have as much fun on a board as guys," says Elissa Steamer, a skateboarding champion, "and they can be just as technically skilled." Today there are special all-girl competitions, as well as professional organizations for both men and women.

What started as a mere pastime for young people is now a recognized sport, with athletes
25 earning tens of thousands of dollars in prize money at international competitions.

Skateboarders love the thrill of performing daring stunts. As for everyone else, just watching the experts is thrilling enough.
